FedEx Express and FedEx Ground Inspection Report Instructions and Frequently Asked Questions (FAQs)

Read the following FAQs for answers on the inspection process.

How do I submit an inspection report?

Follow the four steps listed below to submit an inspection report.

Step 1: Gather the following:

- Digital camera (with flash or good lighting)
- Tape measure
- Inspection report form
- Pen
- Access to all of the packaging and merchandise

Step 2: Photograph the packaging and merchandise.

Note: If possible, change your camera setting to the lowest resolution to allow for faster e-mailing and downloading.

- Example of pictures is shown to the right. →

Step 3: Complete the inspection report.

- Complete all required fields.
- Sign and date the bottom of the form.

Step 4: E-mail or mail the completed inspection report and photographs within 5 business days to:

file.claim@fedex.com

FedEx Cargo Claims Dept.
P.O. Box 256
Pittsburgh, PA 15230

Why do I have to complete an inspection report?

As stated in the FedEx Service Guide, "FedEx reserves the right to inspect a damaged shipment. The shipper and recipient must cooperate to assist in the inspection."

An inspection report completed by you instead of a third party provides timely feedback resulting in quicker resolution.

Who completes the inspection report?

The sender, the recipient or a third party can complete the inspection report.

What if I have questions about the inspection report or need another copy?

Call FedEx Customer Service at 1.800.GoFedEx 1.800.463.3339 and ask for the Cargo Claims Department.

What should I do with the merchandise and packaging after the inspection report is submitted?

Keep the merchandise and all original packaging including contents, until the claim resolution process is concluded.

Example of photographs needed for an inspection report:

- Top of container

- Bottom of container

- Front / right side of container

- Back / left side of container

- Inner packaging

- Inner packaging

- Inside view of container

- Close-up of damage

- Top / front / side of product

- Bottom / back / side of product
